Move (1CP). Move up to 6" in the command phase, including detaching from one unit and attaching to another. He may move again with that unit in the Phalanx Manoeuvre Phase.

Encourage (2 CPs): Raise or lower the aggression level of any one unit within 4" even if in combat. **+1 CP** to encourage C Grade, unless they are advancing; **-1 CP** to encourage A Grade.

Signal the Advance (1 CP). The leader's Phalanx advances towards the enemy at least one move die. Hoplite units may not advance before the signal is given unless forced by a Control Test.

Invoke the Gods (2 CPs). Draw from the God Pack. This may only be done before the leader signals the advance. Some cards must be played immediately, others may be retained to be played at any time of the player's choosing.
